

THINK BEYOND WORKSHOP ON SIDE HUSTLE

**THURSDAY
23RD OF NOVEMBER**

**18:00-21:00
@ HILTON PARK NICOSIA**

INTRODUCTION

Think Beyond Workshop started as an idea to help people go beyond their own expectations. With the right tools, strategies, mindsets, insights and stories we can all push ourselves and create a better tomorrow. We believe that passion drives everything, when we are passionate about what we do, our actions inspire our friends and family to make meaningful changes in their lives. Sharing authentic stories and practical ideas help us create a lifestyle we desire.

Side hustle workshop is designed to help you start something on the side so you can earn an extra income without quitting your day job. We believe that in today's world we have unlimited opportunities to help others and ourselves financially. The purpose of this workshop is not about how to make millions in revenue, hiring employees or becoming an "entrepreneur". Our purpose is for you to understand and learn that you can earn more if you look at problems as opportunities.

The workshop is about how you can earn extra money by doing (helping) someone. Think of it as a part time hobby that makes an impact on your bank account. You will be working on your own terms and we don't necessarily mean start your own business because starting your own business sounds very 'nice' and at the same time draining. Here are a few examples on how you can earn more by doing: consulting, ecommerce, freelancing, dog walking, cleaning, customer service from home, rent your place on AirBnB, computer training, catering, design, development, accounting, video editing, blogging, baking, mobile laundry, kindle publishing, mystery shopping, pet grooming, pet sitting, podcasting, writing, building a community and hundreds of other ideas.

The key is to find something that you are passionate about, good at and something that is profitable. When you look at things that are broken you can ask yourself how you can fix that with a skill that you have.

This three-hour workshop will help you generate ideas, understand if your idea is profitable, look for purpose, take care of your future, create a sustainable source of income, have freedom, pay off debt, save for a holiday, help others or replace your morning job income.

The Think Beyond Workshop is for people who want to learn how they can create a new revenue so they can have a small 'cushion' to lie on. With side hustle you can have extra security and peace of mind.

This workshop is limited to 20 people.

Book your Early Bird tickets today for €50 until the 31st of October.

The price will go €80 from the 01st of November until the 22nd November.

To book call: 22 101935.
